Potential Foodborne Illness – *Listeria monocytogenes*

Company Name:

TreeHouse Foods, Inc.

Brand Name:

Multiple brand names

Product Description:

Frozen Waffle Products

Company Announcement

OAK BROOK, Ill., Oct. 18, 2024 /PRNewswire/ -- TreeHouse Foods, Inc. (NYSE: THS) is voluntarily recalling certain frozen waffle products listed below due to the potential to be contaminated with *Listeria monocytogenes*. *Listeria monocytogenes* is an organism that can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Healthy individuals may suffer only short-term symptoms such as high fever, severe headache, stiffness, nausea, abdominal pain, and diarrhea. *Listeria monocytogenes* infection can cause miscarriages and stillbirths among pregnant women.

The recalled products were distributed throughout the United States and Canada and packed in various formats under the brand names listed below.

Consumers and retailers can identify the UPC on the back of the carton, and the Lot Code and Best By Date for these products on the end of the carton. Photos of the affected products can also be found on this site: https://s202.q4cdn.com/734602292/files/doc_downloads/2024/10/Brantford-Waffles-Press-Release-FinalDraft-All-Images-Only-JC.pdf[External Link Disclaimer](#).

There have been no confirmed reports of illness linked to the recalled products to date. Anyone concerned about an illness should contact a healthcare provider.

This issue was discovered through routine testing at the manufacturing facility.

Consumers should check their freezers for any of the products listed above and dispose of them or return the recalled product to the place of purchase for credit. Consumers with questions may contact the company at 800-596-2903, Monday – Friday, 8:00 a.m. – 4:30 p.m. (CST).

This recall is being carried out with the knowledge of the U.S. Food and Drug Administration (U.S. FDA) and Canadian Food Inspection Agency (CFIA).

-
- * We believe that none of the product being recalled were processed or offered through the national office
 - * We strongly encourage you to notify your agencies within one business day from receipt of this notice.
 - * ALL cased and uncased inventories, both at the member level and agency level, need to be checked. This product may have entered member and agency warehouses through salvage, local donations, TEFAP, local purchases, retail pickups, food drives, or other avenues.
 - * For additional local details, please contact the Health Department(s) for the area(s) your food bank serves.

About Feeding America Recall Notices

The Feeding America national office issues notifications of all national Class I and II recalls--those involving a health hazard situation in which there is reasonable probability that eating the food will cause health problems or death--and other recalls that may affect the safety of food supplied to network members.

The national office strongly encourages all member product solicitors, operations managers, and others involved in food and grocery distribution to regularly consult resources provided by the United States Food and Drug Administration (FDA) at <http://www.fda.gov/opacom/7alerts.html>, and the United States Department of Agriculture (USDA) at http://www.fsis.usda.gov/Fsis_Recalls/index.asp. Additionally, members can often receive information on national, state, and local recalls by contacting their local health departments.
